Certifications:

- SBA Certified Small Business
- A+ Certified with the Better Business Bureau

Compatibility of AutoVAULT:

- Works with IBM's Tivoli Storage Manager® (TSM) Servers running on Windows or Unix
- AutoVAULT application runs on Windows®
- Works with or without IBM's Disaster Recovery Manager® (DRM)

BUSINESS SUMMARY:

Code Relief, LLC is a certified small business and a premier provider of innovative storage management software since 1999. Code Relief's AutoVAULT® software is a proven solution that helps protect your computer's data. Designed for organizations that send computer backup tapes to a vault as part of their backup and disaster recovery strategy, AutoVAULT automates tape vaulting functions, which optimizes work efficiency and accuracy ... and saves money.

CAPABILITIES:

Code Relief, LLC provides commercial software for:

- Automation of tape vaulting
- Vaulting and audit reports
- Faster and more reliable restoration of data in disaster tests
- Reduced operational costs due to better use of tape libraries

FACILITIES AND EQUIPMENT:

AutoVAULT software is manufactured in the USA and is tested and fully approved by IBM for certified use with IBM's enterprise backup product, Tivoli Storage Manager®. AutoVAULT is 100% supported in the USA by responsive, easy-to-understand, and intelligent support technicians.

Why our Product will outperform the rest...

- AutoVAULT is a seamlessly-integrated application that automates and adds functionality to IBM's backup product, *Tivoli Storage Manager® (TSM)*.
- AutoVAULT can be installed and running in under an hour and save 14-28 hours per month per TSM server.
- AutoVAULT can accomplish its job without daily human intervention, which greatly reduces human-error.
- AutoVAULT tape vaulting is more accurate due to specialized error checking, making restoration of data more reliable.
